OPD MODULE

"Streamlined OPD Management
for Seamless Patient Care."

IPD MODULE

“Complete IPD Management for Seamless Admissions, Care, and Discharge..”

Our IPD Management System streamlines the entire inpatient journey—from admission and bed allocation to treatment planning, billing, and discharge.

With real-time bed tracking, organized patient records, and automated financial management, it ensures efficient hospital operations while delivering seamless and quality patient care.

PROCEDURE

“Efficiently Organizing, Managing, and Documenting Every Step of Patient Care.”

Streamline, track, and manage every medical procedure efficiently for better patient care and hospital workflow.

Patient Data Record System

"Streamlining healthcare with secure, real-time access to patient records and efficient data management."

Real-Time Access & Security

Our platform offers a secure, real-time solution for managing patient medical records, ensuring seamless access and updates for healthcare

Streamlined Data Management

Simplified registration, tag customization, and history tracking for efficient care.

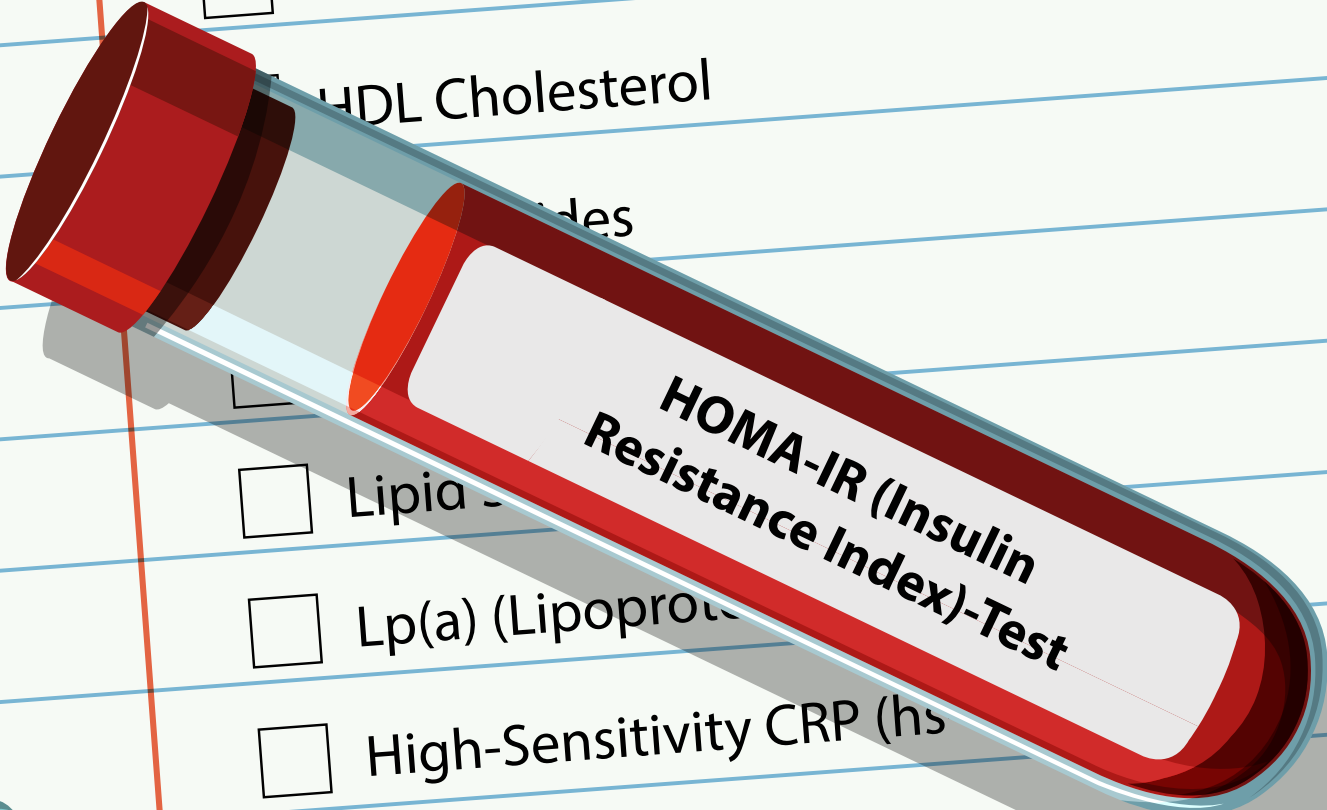

Secure, real-time patient record system that puts health data at your fingertips.

LAB REVIVE

"Accurate, fast, and patient-focused diagnostic care"

- 
- ☐ C-Peptide
 - ☒ HOMA-IR (Insulin Resistance Index)
 - ☐ LDL Cholesterol
 - ☐ HDL Cholesterol
 - ☐ Lipid Panel
 - ☐ Lp(a) (Lipoprotein)
 - ☐ High-Sensitivity CRP (hs)
 - ☐ Troponin T
 - ☐ NT-proBNP (N-terminal pro B-type Natriuretic Peptide)
